Top of the trailerable Com-Pac line, the Com-Pac 23/IV offers accommodations and equipment which make her a most exceptional yacht. With a two cabin layout, a standard equipment hide-A-way galley, and shoal draft keel developed from NASA low-drag, high lift wing sections, the Com-Pac 23/IV is ready for extended cruising.

Below, you will find loads of storage space, berths for four adults, teak and holly cabin sole, six opening ports and extensive hand finished teak wood trim. Topside, the large foredeck and wide sidedecks make moving around and handling sails a pleasure. The large 7'2" self-bailing cockpit has a gas tank storage compartment plus port and starboard seat lockers.

When sailing the full eight stay, masthead rig powers her smoothly and efficiently.
